Dr. Swenson Prophesies That They Will Vote the Ticket Straight.

M'KINLEY TIMES PROVE POTENT LESSON

Americans of Scaudinavian Birth Will Vote for the Party Which Has Brought Them Prosperity in Their Native Land.

Swedish-American republicans of Omaha turned out in large numbers last night to attend the first big rally of the campaign given under the auspices of the Swedish-American Republican league of this city. Dr. Carl A. Swenson, president of Bethany college, Lindsborg, Kan., was the speaker of the evening.

Preliminary to Dr. Swenson's address there was music by a cornet band and a quintet of male voices, also short speeches by Jacob L. Jacobson, candidate for presidential elector on the republican ticket, and A. J. Coleson, candidate for state senator from Douglas county, both of whom are members of the league.

Theodore Johnson, president of the league, in introducing Dr. Swenson, said: "We are going to have some good advice from one who knows, one who has had experience in American politics, a man who is one of our leading Swedish-Americans in this country and who is known from one coast to the

Dr. Swepson's address was a treatise of the political situation from a republican standpoint and was interpolated throughout with anecdote and incident. "I bring you the cheering news," he said, "from all over the central part of the union that there are some republicans left yet. It has been my privilege to travel quite extensively this year and wherever I have been the people has proved himself not only the advance agent of prosperity, but that prosperity has followed in the wake of his election and administration. It has been so in New England, in the west and the east and from the faraway north to the faraway south.

Emancipation of Nebraska.

"In Nebraska vou are in a prosperous condition and I believe that the young glant of statehood is preparing to throw off the shackles of bondage and after November 6 come out among the other states to enjoy the beneficence of republicanism. The old Swedish habit of voting the ticket straight without a scratch is going to be indulged in this year. The republicans have nominated the right men for all the offices, from president down, and if the Swedish people ever had reason to be loyal to the grand old party it is this year, for we have never before been so fully and generously recog-

"This straight voting is the Swedish way be like the man who in answer to the telegraphic query of what should be done with the corpse of his mother-in-law, 'cremate, embalm or bury" replied, 'cremate, embalm and bury: take no chances?' We don't want to take any chances this year. Uncle Sam has treated the Swedish people right. Their wealth, all of which has been gained in this country, is immeasurable. Why, if we all should sail away from America with the wealth we have gained here we could go back to our native land and buy it out-

prominent physician was recently asked why it was there are so many "blood purifiers," "nerve tonics," and medicines for every ill except one of the most common and annoying diseases, viz., piles.

He replied, there are two principal reasens: First, physicians and people in general have thought for years that the only permanent cure for piles was a surgical operation and that medicinal preparations were simply palliatives and not a cure for the trouble.

Another reason is that piles, unlike many other diseases, is in no sense an imaginary trouble. A sufferer from piles is very much aware of the fact and for this reason the few pile saives and ointments, etc., have been short lived because the patient very soon discovered their worthlessness.

He continues: However, t'ere is a ner pile remedy, which, judging from its popularity and extent of its sale, will soon take the place of all other treatment for piles It has certainly made thousands of cures in this obstinate disease and its merit, repealedly tested, has made it famous among phyotcians and wherever introduced. The remedy is sold by druggists everywhere under name of Pyramid Pile Cure.

It is in convenient, suppository form composed of harmless astringents and healing oils, gives immediate relief in all forms of piles and a radical cure without resort to the knife and without pain or interference

with daily occupation. One strong recommendation for the remedy is that it contains no cocaine nor opium and is absolutely safe to use at any time.

One of the suppositories is applied a night, is absorbed and the cure is netural It permanently cures itching, bleeding o

protruding piles and is the only remedy except a dangerous surgical operation that All druggists sell a complete treatment of the suppositories for 50 cents and the Pyra-

Excellent Sheep Market Here.

South Omaha is now considered the best sheep market in the country, as prices range higher here than at other river markets. A day or two ago M. S. Foss came in from Kemmer, Wyo., with a split shipment of lambs. Half of the original shipment was switched off and sent to a market lower down the river. There was no difference in the quality of the lambs. Those sold here went to Armour for \$5.15, while the lower river market paid only \$5.
